2017-2019

SENIOR HIGH SCHOOL

Technical Vocational Strand - ICT
Computer Programming

2019 - 2023

COLLEGE

Computer Engineering at
Polytechnic University of the
Philippines - Biñan City Laguna

Expertise

Front-end

- Angular Framework
- HTML
- CSS
- JAVASCRIPT
- Flutter Framework

Back-end

- Express js
- MongoDB

Programming Languages

- Java
- Python
- C++

Version Control and Collaboration

- Git (github, gitkraken)
- Jira

Experience

FRONT-END DEV 2022-2023

FREELANCING

Throughout my freelancing journey, I have been on an enriching path of self-discovery and skill development. My freelance work, which I consider a vital complement to my academic pursuits, has not only provided financial support but also honed my technical expertise and soft skills. It has been a journey of balancing student responsibilities while taking on challenging projects for fellow students and clients alike. This experience has instilled in me self-management, adaptability, and the confidence to tackle new roles and responsibilities head-on.

Project Highlights

- **Dental Clinic Website:** Crafted a responsive and user-friendly website, showcasing my web development and design skills.
- **Water Level Monitoring System:** Integrated Flutter, Arduino, and GSM technology to create an efficient water level monitoring solution.
- **School Payment System Mobile App:** Designed and developed a mobile app for convenient tuition and fee payments using QR code scanning.
- **Personal Portfolio Website:** Established my online presence with a portfolio website, emphasizing web development, design, and personal branding.

Achievements

- President's Lister
- Dean's Lister
- Iskolar ng Binan Beneficiary

Non-technical Skills

- Effective Communication
- Self Management
- Creativity
- Problem Solving
- Leadership
- Continuous Learning with best practices and technologies
- Computer Literate (MS Tools and Google tools)
- Fast Learner

Seminars and Workshops

- Development with JavaScript: Techniques for Building Interactive and Responsive Applications
- Git and GitHub 101: An Introduction to Version Control & Collaborative Development
- Fundamentals of Arduino: An Exploration Workshop Mastering Web
