FRONTEND DEVELOPER

I'm a dedicated Frontend Developer with a keen aspiration to transition into a well-rounded Full-Stack Developer. Proficient in front-end technologies, driven to craft seamless user experiences, and eager to fortify back-end capabilities. Committed to propelling innovation and growth within a dynamic team, while steadfastly absorbing new technologies for enhanced contributions to company success.

FREELANCING

Experiences
Angular, HTML, SCSS, JavaScript, TypeScript, MongoDb, Java, and Flutter.
